About us

Orica Digital Solutions can readily understand and optimise their operations at every step of the value chain, from exploration to processing. Geosolutions - A part of Orica Digital Solutions - is a global leader in geotechnical, geospatial and structural monitoring. The group is backed by a team with known expertise and global reach, grounded in Orica's 150 years of experience. The Geosolutions group brings together six of the world's leading monitoring brands — GroundProbe, RST Instruments, Measurand, 3vGeomatics, Syscom Instruments and NavStar. We provide everything from sensors to services — a complete, end-to-end portfolio of solutions for our customers across the mining and civil infrastructure sectors. From the products we develop to the monitoring solutions we tailor, GroundProbe's (an Orica Digital Solutions company) vision is to be the most trusted sensors and software company, empowering safer and more sustainable operation. Today, in a changing world, as our

people, services and global footprint continue to grow, we work hard to ensure that our vision remains true. At GroundProbe, our mission is to create innovative technologies that deliver high-value information to our customers, helping them better manage risk. GroundProbe's values define the way we work and interact with our customers, partners, investors, community and our environment. They guide us and help us to retain a culture of respect, innovation, and commitment to our industry. GroundProbe is proud of its company culture of diversity, and our values ensure we remain committed to fostering a positive and inclusive workplace for our staff.

Last week, the BPEQ team showcased the impressive engineering work that is driving the design and construction of the **GroundProbe** for the city of Brisbane.

We value these opportunities and events play a critical role in our practice in Queensland.

If your company, university or organisation would like to invite us to present, please contact us at info@bpeq.org.au.
