How to get Free Data with Opera Mini

Share

November 14th, 2025

Want to go online without buying or using your own data? With **Opera Mini**, you can get **free data every day** in certain countries. Here's how it works.

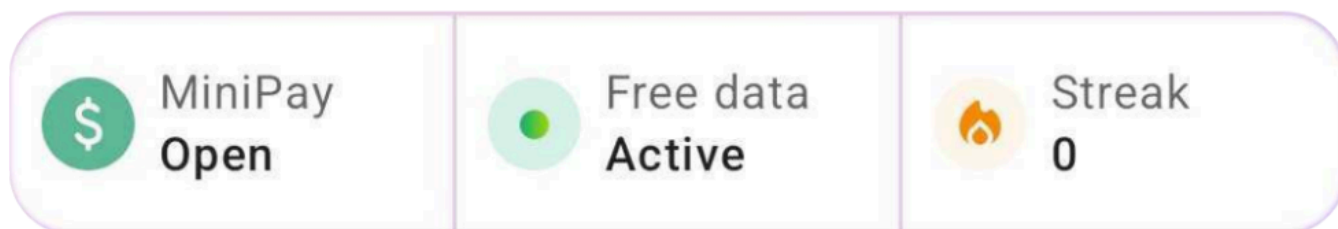

What you need to do

1. **Download or update** Opera Mini on your phone (make sure you have the latest version).
2. Use a **supported mobile network** in your country (see the list below).
3. Make sure **mobile data on your phone is on** – this is very important, because without it free data won't work.

plan. If you don't have any airtime or data in your SIM card, you will go **offline**.

If you have the latest version of Opera Mini and use a supported network, you'll see a message on your home screen that says “**Free data: Active.**” This means you get **free data every day!**

The offer is designed to help you stay connected without using your own data. You can use your free data to enjoy popular Opera Mini features, such as **Football scores** and **free built-in AI assistant**.

Note: Free data only covers regular browsing. It doesn't apply to streaming videos, large downloads, or other heavy data-use activities.

Tips to make the most of it

- Set Opera Mini as your **default browser** so you can use your free data every day.
- Keep **Opera Mini updated** so you always get the latest features and free data.

Where is free data available?

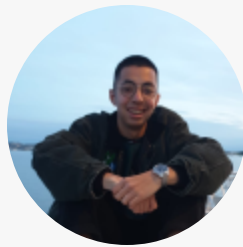

Free daily browsing is currently available in these countries and networks:

- Nigeria – MTN and Airtel
- South Africa – MTN
- Kenya – Safaricom and Airtel
- Ghana – MTN

If you're in one of the mentioned countries and on a supported mobile network, using Opera Mini is a great way to get some free data every day. Just update the app and you're good to go.

Happy browsing!
