Direct access to dedicated experts

With support, your organization can receive:

Cross-platform support

Get fast and reliable support for Chrome browser on Windows, Mac, Linux, and ChromeOS — and help with the Google Admin console — online or over the phone.

Help with policy management

Ensure policy enforcement by managing and configuring hundreds of policies across Windows Group Policy and Chrome Enterprise Core, with expert-level help.

Support for configuring legacy apps

Get help setting up and managing Legacy Browser Support, which helps your users seamlessly access older apps that are incompatible with modern browsers.

Extra security and more governance

Highly secure pin-based access to support services allows only authorized and current admins to access services on behalf of your organization.
