

Spring for GraphQL

Spring for GraphQL provides support for Spring applications built on [GraphQL Java](#). It is a joint collaboration between the GraphQL Java team and Spring engineering.

Spring for GraphQL is the successor of the [GraphQL Java Spring](#) project from the GraphQL Java team. It aims to be the foundation for all Spring, GraphQL applications.

Please, use our [issue tracker](#) to report a problem, discuss a design issue, or to request a feature.

Check the [Wiki](#) for the latest updates, baseline requirements, upgrade notes, and other cross-version information.

To get started, see the [Boot Starter](#) and [Samples](#) sections.
