Redesign teaching for the AI era

Google Higher Ed Faculty Groups support more than curriculum design. They're spaces for learning how to use tools like Gemini in meaningful ways to drive deeper student learning.

Get access to transformative tools and connections for impactful outcomes

Designed to be supportive and community-driven, GFGs offer you the resources and network necessary to navigate the changing educational landscape.

See what is possible with Gemini and other Google technologies in higher ed through shared insights and practical examples.

Learn how to leverage the broader Google ecosystem to enhance your instructional strategy, from everyday teaching tools to advanced AI.

Global connection

Find and collaborate with a global network of colleagues who share your interests, roles, and areas of study.

Curriculum redesign

Utilize in-person, self-serve, and facilitated professional learning resources to help you re-design your existing curricula for an AI-enabled world.

This community is for you

This is a space for global higher education faculty and curriculum designers interested in learning from their peers, innovating AI integration, and turning new ideas into tangible impact.

Value peer learning

Collaborate with others and share your own expertise.

Prepare to innovate

Discover practical ways to re-imagine your instructional practice.

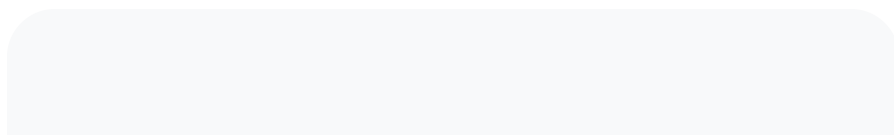

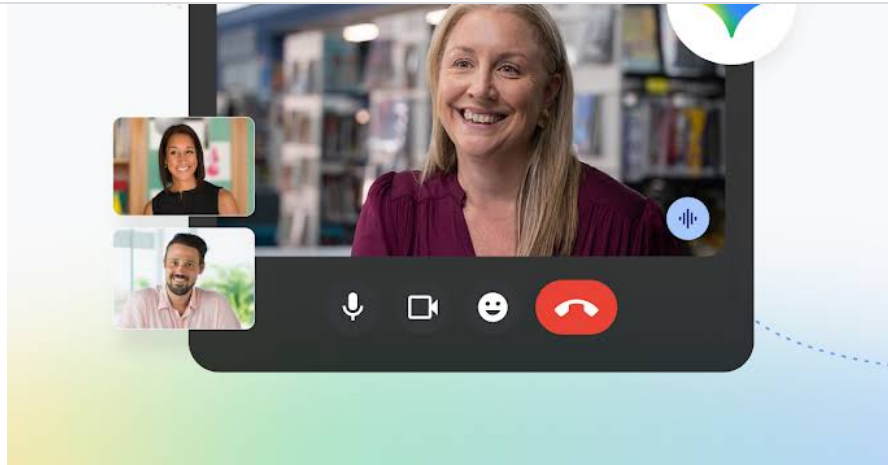

Make meaningful impact

Discover examples of Gemini in action and apply them to your work.

Ready to reimagine your curriculum?

Take the next step in your professional journey and discover new possibilities with Gemini.

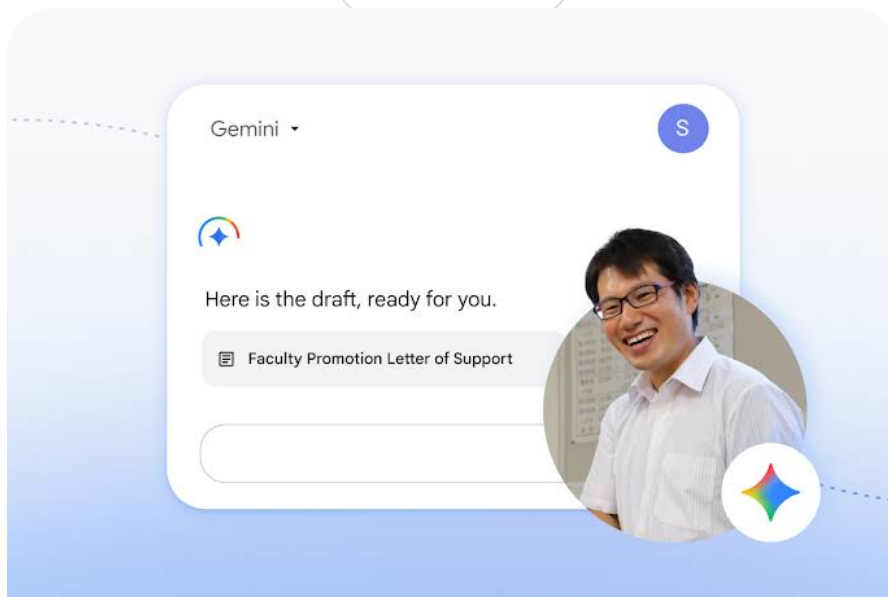

Join the community

Connect with peers, engage with experts,
and discover how to use AI to improve
learning outcomes.
