

Book sources

This page allows users to search multiple sources for a book given a 10- or 13-digit International Standard Book Number. Spaces and dashes in the ISBN do not matter.

Search for book sources

ISBN:

For assistance, see Help:ISBN.

This page links to catalogs of libraries, booksellers, and other book sources where you will be able to search for the book by its International Standard Book Number (ISBN).

- If you arrived at this page by clicking an ISBN link in a Wikipedia page, you will find the full range of relevant search links for that specific book by scrolling to the **find** links below. To search for a different book, type that book's individual ISBN into this **ISBN search box**.
- Spaces and hyphens in the ISBN do not matter. Also, the number starts *after* the colon for "ISBN-10:" and "ISBN-13:" numbers.
- An ISBN identifies a specific *edition* of a book. Any given title may therefore have a number of different ISBNs. See § Find other editions below for finding other editions.
- An ISBN registration, even one corresponding to a book page on a major book distributor database, is *not* definite proof that such a book actually exists. A title may have been cancelled or postponed after the ISBN was assigned. Check to see if the book exists or not.
- The master copy of this page is located at Wikipedia:Book sources.

Non-English book sources

If the book you are looking for is in a language other than English, you might find it helpful to look at the equivalent pages on other Wikipedias, linked below – they are more likely to have sources appropriate for that language.

Find other editions

The WorldCat xISBN tool for finding other editions is no longer available. However, there is often a "view all editions" link on the results page from an ISBN search.

Google books often lists other editions of a book and related books under the "about this book" link.

You can convert between 10 and 13 digit ISBNs with these tools:

- ISBN converter (https://www.isbn.org/ISBN_converter) at ISBN.org
- ISBN converter (with optional hyphenation after conversion) (<https://www.loc.gov/programs/preassigned-control-number/isbn-converter/>) at the Library of Congress
