

The Quarterly Catch-up, Q2 2025

By Fed Communities Staff

July 2, 2025

This post captures select new content published by the Federal Reserve between April 1 and June 30, 2025, on the topics of economic development, workforce development, Native communities, housing, child care, small business, and rural development.

Each quarter, Fed Communities will retrospectively share new community development-related research, analyses, and articles from all 12 Federal Reserve Banks and the Board of Governors in one convenient place.

— Economic Development

Economic development strengthens economies by creating resilient, and vibrant communities. From closing gaps and increasing access, to sharing and deploying resources after a natural disaster, economic development is an essential tool for every lower-income community. Explore the latest economic development articles and research from Fed experts.
