Last updated Jul 16, 2026

Juggling classes, a tight study schedule, and extracurriculars is tough enough without having to search for the right technology to lighten the load.

A [Google AI Pro plan](#) unlocks the best of Google AI for learning. **The Gemini app in Pro¹** gives you access to Google's next-gen AI, perfect for going deeper on specific topics or helping you achieve complex tasks. **Gemini in Gmail, Docs, and more** enhances your productivity with AI by helping you write, organize, and streamline tasks, while **Gemini Notebook in Pro¹** gives you higher limits to the personal AI research assistant.

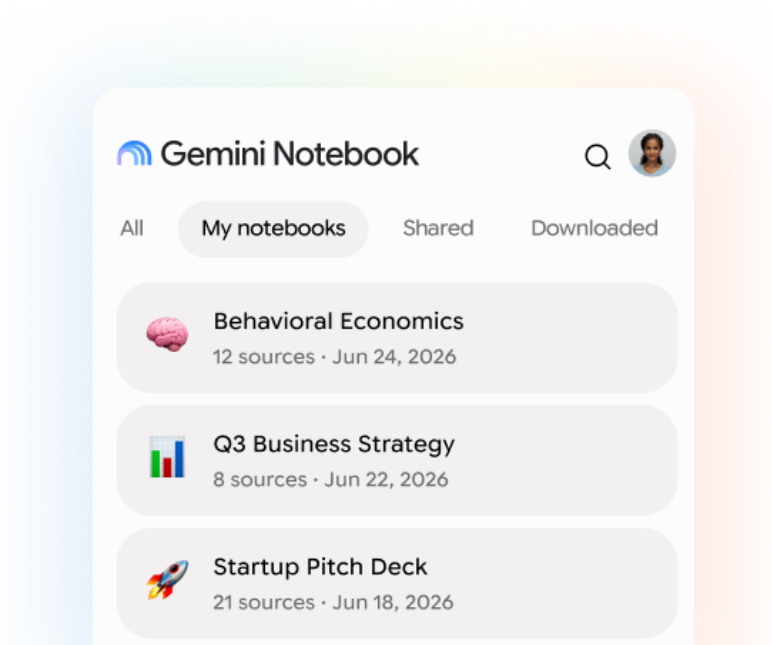

Plus, you get all the perks of a [Google One membership](#), like expanded storage to keep your stuff backed up to the cloud.

See how a Google AI Pro plan can help you level up your learning.

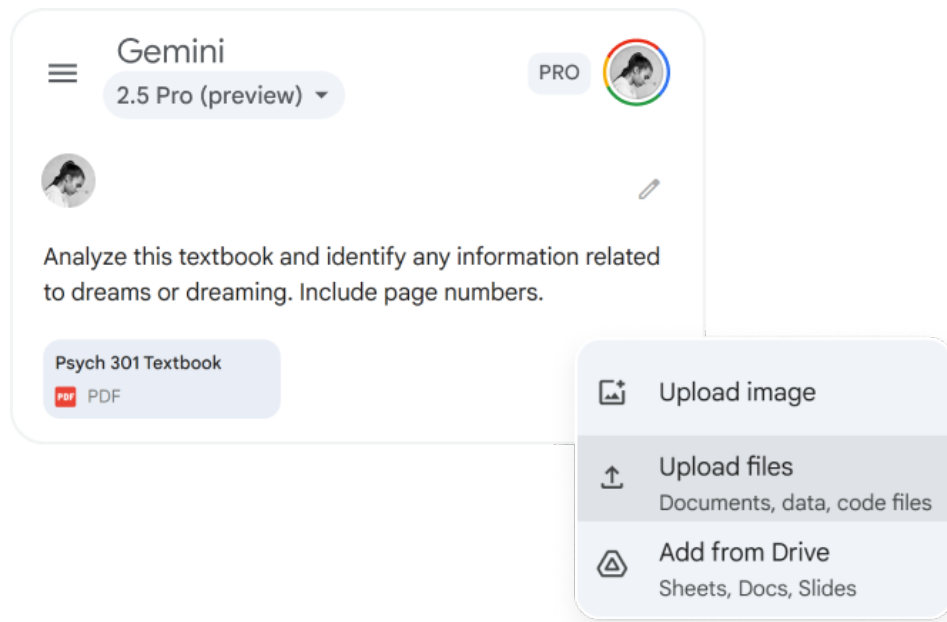

Manage information overload

Gone are the days of struggling to organize your notes or digging through textbooks to find that one helpful paragraph. With expanded storage from Google One and tools available in the Google AI Pro plan, you can:

Organize your course materials: With expanded storage, you can save your notes, assignments, and PDFs for easy access in Google Drive. **Gemini Notebook** can then leverage your material to create one-click summaries, FAQs, timelines, and briefings. With **Gemini Notebook in Pro**, you'll get 5 times more Audio Overviews for on-the-go listening and expanded notebook capacity.

Identify the most relevant information quickly: With the **Gemini app in Pro**, you can upload up to 1,500 pages of text — that's entire textbooks, reports, and more — and ask questions that span multiple chapters or even the whole book. No more flipping pages or losing your place — get the big picture and the fine details, all in one go.

Work efficiently: Take your productivity to the next level with full access to **Gemini in Gmail, Docs, and more**. When it's time to start looking for your first job, Gemini can help you stay organized and responsive. Quickly draft resumes and cover letters — all with AI-powered assistance. Plus, get instant support within Docs, Slides, Sheets, and Meet using the Gemini side panel.

Gemini, draft a cover letter

Based on your document, here's a draft cover letter for a creative position at BreakFront:

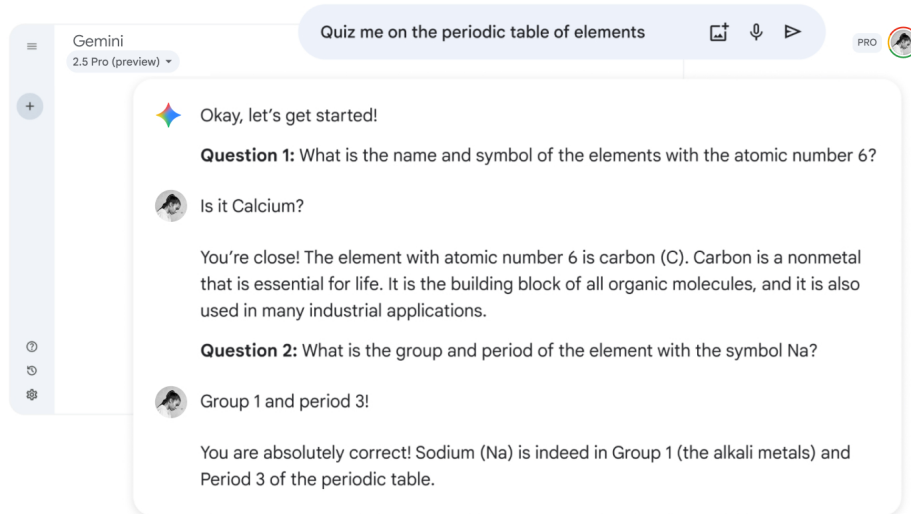

[Start of Draft Cover Letter]

Dear [Hiring Manager Name],
I am writing to express my enthusiastic interest in the [Creative Role Name] position at BreakFront, as advertised on [Platform where you saw the job posting]. With my [Number]

Get prepared

Exams can be stressful, but the Gemini app can help you feel prepared and confident. You can:

- **Generate practice tests:** Use the Gemini app to create customized practice tests based on your uploaded notes, previous exams, or specific topics you want to focus on. With a 1-million-token context window, the Gemini app in Pro can handle large amounts of data and multiple files in the same prompt. This allows for targeted studying and helps you identify areas where you need more practice.

- **Get feedback:** Stuck on a problem or unsure about your approach? Ask Gemini to review your work-in-progress, providing valuable suggestions and insights. You can ask for help identifying areas for improvement to enhance your understanding of the subject.

Ideate and create quickly

Starting a new assignment? The Gemini app can quickly process or even generate large amounts of information for you to jumpstart your creativity and help you organize your thoughts.

- **Get past the blank page:** The Gemini app in Pro unlocks expanded access to features like **Deep Research**,² which automatically browses and analyzes up to hundreds of websites in real-time, giving you comprehensive research reports on nearly any topic in minutes and saving you hours of time on school, work, or personal projects.
- **Get organized:** Once you have some general notes, you can use the Gemini app to structure your thoughts on the go. You could also use Gemini to help you refine your ideas directly within an existing Doc or generate presentation slides based on your notes in Drive. This provides a solid foundation for your project and saves you valuable time.

Level up your learning with Google AI Pro

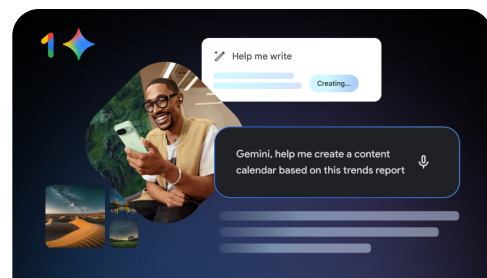

With the Gemini app in Pro, deep AI integration across Google apps with Gemini in Gmail, Docs, and more — plus expanded storage for all your important files — a [Google AI Pro plan](#) can help you take your learning to the next level today.
