Phabricator is a collaboration platform open to all Wikimedia contributors. It is mostly used for managing work in software projects. Non-technical initiatives are welcome as well. Phabricator is powered by [Phorge](#).

-  [Create your Phabricator account](#).
-  [Report a software bug \(guidelines\)](#).
-  [Report a security issue \(guidelines\)](#).
-  [Create a feature or enhancement request](#).
-  [Create a generic task](#).
 -  [Learn what happens after reporting a ticket here](#).
-  [Learn to use Phabricator](#) (including videos) or [ask questions about Phabricator itself](#).
-  For Wikimedia software maintainers: [Request a project](#) to use Phabricator for planning.
-  For general Wikimedia development questions, see [Communication](#) instead.
-  To test and experiment with Phabricator, go to phabricator.wmcloud.org instead.
