What are NCBI Reference Sequence (RefSeq) accession numbers and what information is embedded in their format? (/kbArticle/?pn=KA-03437)

What does 'genomic clone has been placed' really mean? (/kbArticle/?pn=KA-05212)

What are genome assembly accession numbers at NCBI? (/kbArticle/?pn=KA-03451)

How are genome assemblies generated and what are assembly levels? (/kbArticle/?pn=KA-03568)

How do I obtain the current human proteome sequences from NCBI? (/kbArticle/?pn=KA-03450)

Why do I see square brackets around some organism names in the NCBI Taxonomy database? (/kbArticle/?pn=KA-03379)

How do I use Gene records at NCBI to find and download all SNPs that are associated with a human gene? (/kbArticle/?pn=KA-03310)

Why are the Entrez Genome and Assembly web pages gone? (/kbArticle/?pn=KA-05455)

How are organisms in the NCBI Taxonomy database formally named? (/kbArticle/?pn=KA-03381)

What is nucleotide sequence/genome annotation? (/kbArticle/?pn=KA-03574)

How do I obtain a transcript and protein sequence for a gene by using the NCBI Gene database? (/kbArticle/?pn=KA-03361)

Where and how do I retrieve human mitochondrial genome sequences, including those from human genealogy studies? (/kbArticle/?pn=KA-03460)

How do I access information on genomic clones at NCBI? (/kbArticle/?pn=KA-05210)

What are accession numbers at NCBI? (/kbArticle/?pn=KA-03434)

What are the sources of the NCBI Protein database sequences? (/kbArticle/?pn=KA-03389)

How do I search NCBI Protein database for sequences that belong to a protein family? (/kbArticle/?pn=KA-03456)

What is a genome assembly? (/kbArticle/?pn=KA-03565)

Why are genomes sequenced? (/kbArticle/?pn=KA-03566)

What are reference genomes and how can you find these at NCBI? (/kbArticle/?pn=KA-03578)

What are genomic-clone libraries and how are they made? (/kbArticle/?pn=KA-05211)

How do I obtain a genomic sequence record for a gene using the NCBI Gene database? (/kbArticle/?pn=KA-03358)
How can I find tissue-specific expression data for a gene of interest at NCBI? (/kbArticle/?pn=KA-03392)
On what sequences do you base NCBI Taxonomy classification and the Taxonomy Common Tree? (/kbArticle/?pn=KA-03471)
What are the data sources for the expression displays on the Genome Data Viewer at NCBI? (/kbArticle/?pn=KA-03375)
What was the reason for the removal of a prokaryotic RefSeq protein record and how do I find its replacement at NCBI? (/kbArticle/?pn=KA-03408)
What is the number of the NCBI Protein database records and does each record represent a unique sequence? (/kbArticle/?pn=KA-03428)
What types of genomic sequences are archived in the NCBI Nucleotide database for an organism? (/kbArticle/?pn=KA-03349)
How do I locate a RefSeq or UniProtKB (Swiss-Prot) sequence that is identical to my protein of interest at NCBI? (/kbArticle/?pn=KA-03245)
How do I use Gene records at NCBI to access human variation data in Variation Viewer? (/kbArticle/?pn=KA-03334)
How do I find the complete taxonomic lineage for an organism at NCBI? (/kbArticle/?pn=KA-03342)
How do I obtain subsets of the human proteome at NCBI? (/kbArticle/?pn=KA-03453)
Is there a whole genome sequence for my organism of interest at NCBI? (/kbArticle/?pn=KA-03313)
How do I access all sequence records for a genome assembly on the NCBI web? (/kbArticle/?pn=KA-03351)
When I search your database for a gene, I obtain too many records. What sequence record should I choose? (/kbArticle/?pn=KA-03357)
How do I find variation information and associated phenotypes for a human gene at NCBI? (/kbArticle/?pn=KA-03360)
How do I find specific gene expression studies at NCBI? (/kbArticle/?pn=KA-03367)
How can I compare expression of a gene of interest between different tissues at NCBI? (/kbArticle/?pn=KA-03390)
How do I obtain a curated set of proteins for my organism or taxonomic group at NCBI? (/kbArticle/?pn=KA-03398)
How are GenBank protein sequences determined? (/kbArticle/?pn=KA-03448)
How do I find GenBank records annotated with variation features? (/kbArticle/?pn=KA-03536)
Who generates genome assemblies that are present in the NCBI databases? (/kbArticle/?pn=KA-03570)
