Revision as of 22:00, 1 July 2008

This is the Translations template. It can be used to link to translations of an article in the wiki. To use it in your article, insert it as follows:

```
{{Translations|
  articles=Es:Foo,Hr:Bar
}}
```

Any number of translations can be listed in the `articles` parameter, separated by commas.

If no translations are specified, the page is marked as *Untranslated*.
