captions. Never miss a beat by setting your phone to vibrate when your name's spoken. And for other important sounds like sirens, a doorbell or a dog barking, set your phone, or smartwatch to vibrate or flash.'

[Download now](#)

Caption everything on your phone.

With a single tap, automatically caption videos, podcasts, and audio messages—even your home movies. Choose the language¹ you're familiar with, and watch spoken words appear on-screen. On Pixel, you can even caption your calls. You can automatically generate real-time captions for media with audio on Chrome.
